SUMMARY

Full Stack Web Developer with a background in 1-on-1 Coaching and a passion for working with others to solve problems. Skilled at creative problem solving and communicating effectively so that each person feels like a valuable asset to the team or group. Known for being detail-oriented and extremely self-motivated.

CURRENT AND DEVELOPING SKILL SET:

Languages: HTML, CSS, JavaScript, jQuery, MERN Stack, Git, mySQL, ES6, Sequelize, React, JSX, Jest, Travis CI, Webpack and others

Soft Skills: Quick and creative problem solving, communication, self-motivated, attention to detail, always a team player.

PROJECTS

Quiz Game

<https://gold-team-quiz.herokuapp.com/>

<https://github.com/kelly-bazella/Project-2>

- A full stack quiz-game application where users can take and create custom quizzes, create a user profile and store their quiz results to the database
- I primarily focused on the back end of the application by setting up our sequelize ORM, as well as the api routes and other aspects of the application functionality.
- jQuery, mySQL Database, Sequelize ORM, Passport User Authentication, and the Materialize CSS framework. We employed the MVC paradigm and Agile methodology to develop a full-stack application.

Note Taker

<https://tommyboone.github.io/Note-Taker/>

<https://github.com/tommyboone/Note-Taker>

- For users that need to keep track of a lot of information, it's easy to forget or be unable to recall something important. Being able to take persistent notes allows users to have written information available when needed.
- Solo project, so here I was responsible for making sure everything worked well and looked good
- jQuery, Express, Ajax and the Bootstrap framework

Travel Master

<https://github.com/stevekindt/Project-1>

<https://stevekindt.github.io/Project-1/>

- Utilizing the OpenWeather API to get current weather and 5-day forecast. In addition, I was also responsible for ensuring that each section of the app was functional.
- jQuery, AJAX. OpenWeather, RESTCountries, and GoogleMaps APIs. Foundation framework.

EXPERIENCE

Manager/Trainer

2018-Present

TwinTown Fitness, Minneapolis, MN

- Managed a client list and ensured they were receiving the highest-quality experience.
- Collaborated closely with staff in a fast-paced, competitive work environment.
- Continually pushed the staff to perform their best every day.
- Oversaw new and returning clients.
- Constantly strived to be at the forefront of all new training methods and techniques.

EDUCATION

Bootcamp Certificate: The Coding Bootcamp University of Minnesota, St.Paul, MN

A 24-week intensive program focused on gaining technical programming skills in all front-end and back-end development. Focus was on ensuring proficiency in each aspect of web design.

Degree or Certification: University of Minnesota, St.Paul, MN
